2020: Cultivating Change

From November 12 – 18, 2020, join Food Secure Canada for an online gathering to talk about a **just transition to a regenerative food system**. This conference will centre the work of Indigenous, Black, and racialized food leaders, integrating antiracist and decolonized approaches to the food movement.

This event is organized by **Food Secure Canada (FSC)**, a pan-Canadian alliance of organizations and individuals working together to advance food security and food sovereignty through three interlocking goals:

1. zero hunger
2. healthy and safe food
3. sustainable food systems
